Sharing links from the library catalog

If you would like to share a link to an entire book, journal, or database, first look it up in the Library Catalog. Once you are in the record, right click on the link under the “View It” section and select “Copy link address”. ¹

If you are using JumboSearch, click on “Permalink” to create a link that will bring you back to the item record.

¹ Depending on your browser, the phrase “Copy link address” may be stated differently. e.g., Mozilla Firefox: “Copy link location”; Internet Explorer: “Copy shortcut”
