## WELCOME

Welcome to the DELTA HEALTH CENTER, INC. The Delta Health Center (outpatient services) is located 3/4 miles west on McGinnis Road, Mound Bayou, Mississippi.

The 32,000 square foot ambulatory care facility which opened in February, 1982, boasts the most modern equipment and aesthetic atmosphere for delivery of health care services. A prominent fixture and component of the total community, the health center has operated since 1968.

We are here to serve you by providing professional and quality comprehensive health care. At the request of the patient and/or the discretion of the provider, arrangements are made at other hospitals and health care facilities throughout the State for unusual problems.

Our physicians work as a team with dentists, pharmacists, lab techs, x-ray tech, nurse practitioner, mid-wife, nutritionist and social workers. This highly qualified staff assumes responsibility for providing care to your entire family.

---

## PHILOSOPHY AND GOAL

We believe the enjoyment of good health is essential and should be available to all people regardless of financial status. Maintenance of good health is not only the result of providing quality service but also providing health education and advocacy. While many people in our society are unable to gain access to the health mainstream in this society, we believe that service area citizens-notwithstanding race, creed, or national origin-are entitled to the best care available.

The staff of DHC, Inc., has a dual commitment, of assisting people with the difficult task of living wisely and providing high quality health care services which are accessible, affordable and acceptable to the cultural and social mores of the community.

The overall intent of Delta Health Center, Inc., is to offer comprehensive, highly professional and compassionate health care services to residents of its service area which includes Bolivar, Sunflower, and Washington Counties.
